

Cyber Security Graduate

Zagreb

Join us at **Adcubum** – a **Swiss IT product company** that specializes in insurance software for health, accident, and property insurance. We are the leading provider of health and accident insurance in Switzerland, and our team of highly skilled professionals from the insurance and IT sectors continuously enhance our software solutions.

As we expand our operations internationally across Switzerland, Germany, and Croatia, we are seeking passionate and talented individual to join our **CISO Office Graduate Program** at our Zagreb location.

This is an incredible opportunity for ambitious individuals looking to gain extensive knowledge and experience.

Responsibilities:

- **Assist in Threat Monitoring and Analysis:** Work with the security team to identify, analyze, and respond to security threats and vulnerabilities.
- **Conduct Security Assessments:** Perform regular security assessments and audits to ensure compliance with company policies and industry standards.

- **Support Incident Response Activities:** Participate in incident response efforts, helping to mitigate and resolve security incidents effectively.
- **Develop and Update Security Policies:** Contribute to the creation and maintenance of cybersecurity policies, procedures, and best practices.
- **Collaborate on Security Projects:** Work with cross-functional teams on various cybersecurity projects, from implementation to monitoring and improvement.
- **Engage in Security Awareness Training:** Assist in developing and delivering training programs to educate employees on cybersecurity best practices and awareness.

Requirements:

- Ongoing studies (IT, information security or similar) towards a bachelor's or master's degree
- Good knowledge of the topics related to cyber security
- Ideally initial practical experience in the field
- Preferably base knowledge of agile and secure software development processes
- Some base knowledge on common programming languages like Java
- Base knowledge on how to work with tools like JIRA/Confluence
- Enjoy working in a dynamic environment and contributing proactively
- Very good written and spoken English skills, German language skills being a plus

Don't worry if you don't meet all the criteria listed above. We believe that a willingness to learn is essential, and we encourage you to seize this opportunity.

What We Offer:

- **Kickstart Your Career in Cybersecurity:** Join the CISO Office and embark on a rewarding journey in Information and Cybersecurity, receiving hands-on training from our industry experts.
- **Comprehensive Learning Experience:** Gain exposure to a wide range of cybersecurity domains including threat analysis, risk management, compliance, and incident response.
- **Mentorship and Professional Development:** Benefit from a personalized mentorship program and professional development workshops designed to enhance your skills and knowledge in the field.
- **Innovative Work Environment:** Work with cutting-edge technologies like AI and contribute to critical projects that protect our organization's information assets.

- **Collaborative Team Culture:** Be part of a dynamic and supportive team where collaboration, innovation, and continuous learning are encouraged.
- **Pathway to Certification and Career Growth:** Access opportunities for industry-recognized certifications and fast-track your career growth within our organization.
- **Flexible Hybrid Work Model:** Enjoy the benefits of a flexible hybrid work arrangement, combining work-from-home and office arrangements.
- **Student-to-Employee Pathway:** We're offering a student contract with the aim of offering you a permanent employment contract after you finish college.

Join us in creating the success story of Adcubum and become an integral part of our company.
